KIM CLAYTON

"At 62 years old I have found renewed strength, energy, and stamina. I am grateful for this "find." It increases my source of power and drive. From old, tired, depressed, overweight... to the new me. It took me a lifetime in becoming me the "dark" self. It took me a year to become who I am today. START."

LAKSHMI SITOLE

"After twelve months of taking Thrive™-hGH and experiencing the benefits of increased growth hormone levels, I am no longer considering taking more extreme anti-aging measures. My skin is tightening daily, and I realized it wasn't just the skin on my face but even in other areas I didn't know could ever bounce back. Every year, I feel ten years younger."
