

Distributor Business Kit and Application Fee (required) \$49

Fee includes Limitless Distributor Business Kit (first year only), access to the Limitless Virtual Office, a distributor replicated website, paycard account, and certain marketing materials for one year. Annual renewal fee is \$25. Optional in ND.

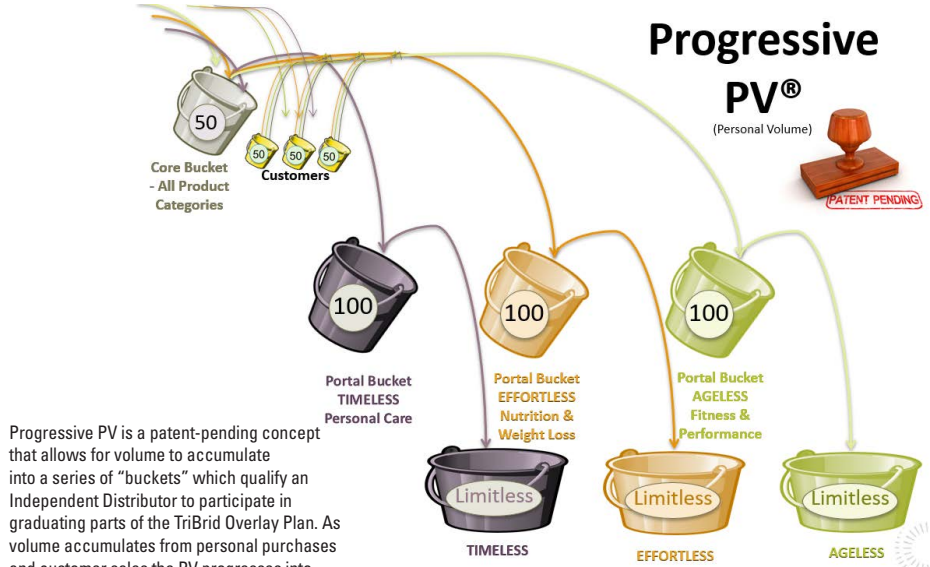

Limitless Delivery Rewards (LDR) Autoship Program

LDR Autoship makes ordering monthly convenient. Auto-Ship orders can be managed in the Limitless Virtual Office. Longevity rewards points are earned over time and can be redeemed for free product through the program. Details available in the Virtual Office.

Customers

Retail Customers: Order as needed - pay full retail. Preferred Customers: Order monthly on LDR at discounted retail. Distributors can buy wholesale and sell retail, or they can enroll customers into the Limitless system to buy direct, then earn markups and commissions.

Progressive PV

Progressive PV is a patent-pending concept that allows for volume to accumulate into a series of "buckets" which qualify an Independent Distributor to participate in graduating parts of the TriBrid Overlay Plan. As volume accumulates from personal purchases and customer sales the PV progresses into three bucket types: Core PV, Portal PV, and Limitless PV. Core PV collects volume from all categories for you and your customers, after which all volume flows into your Portal PV, and then your respective Limitless buckets.

Active: 50 Core PV volume from any category. Both Distributors and Customers must fulfill their own Core PV buckets. Any volume over 50 in the month flows over to the distributor's Portal PV bucket. Ambassadors and above have an option to accelerate Customer Core PV.

Commissionable Volume: All volumes are given a 1:1 commissionable volume to the Distributor purchase price. Spend \$100 and get 100 PV credit.

Company Portal Volume: All company-wide volume flowing into a given category portal after the distributors' initial Core PV as well as all Customers' Core PV purchases.

Customer Acquisition Bonus (CAB): A Distributor who has personally filled their 50 Core PV bucket and accumulated 300 Portal PV is an Xecutive, and will earn a 5% bonus on the Xecutive Qualifying Volume in each category.

Limitless PV: A distributor's volume over 300 Portal PV. This bucket volume is directed to the actual category purchased: Timeless, Effortless, and Ageless. A distributor's Limitless Portal PV is treated as first level volume in the category and therefore is included in the XQV.

Monthly Pay: All commission, bonuses and retail markups are calculated on a monthly calendar basis and are paid on the 15th of the following month.

Portal Pool: A bonus pool to be shared among all Distributors with the rank of Manager and above. Each category will have a pool that consists of 30% of the Company Portal Volume.

Portal Pool Share: Distributors with a paid rank of Manager or above will earn one share for each point of volume in the total Xecutive Group Volume Generations he/she is eligible to override. Then each share is rewarded with the calculated Portal Share Value, which is the 30% Company Portal Volume divided by the total number of shares earned by all Distributors with a rank of Manager or higher.

Portal PV: A distributor's volume after both his/her Core 50 PV as well as after his/her Customers' Core 50 PV, up to 300 total Portal PV. All Portal PV past 300 will flow into the distributor's respective Limitless portal bucket according to which category was actually purchased. Ambassadors have an option to accelerate Customer Core PV.

PSV: Personal Sales Volume consists of the personal purchases of a Distributor and the purchases made by his personally enrolled retail customers and preferred customers.

PV: Personal Volume - the value each product is assigned on which commissions will be paid. In the U.S. Market, PV is equal to 100% of the wholesale price. Other markets may have a different value.

Xecutive: A Distributor who has personally filled his or her 50 Core PV bucket and accumulated 300 Portal PV, is eligible for the Customer Acquisition Bonus or CAB.

Xecutive Group Bonus (XGB): As an Xecutive; you will earn a 10% bonus on your Xecutive Group Volume.

Xecutive Group Volume (XGV): All volume beginning with your XQV, down to and including the Portal PV of the next downline Xecutive³ in each line.

Xecutive Leg: A leg begins with a personally sponsored distributor and his/her entire organization. An Xecutive Leg is a leg with a qualified downline Xecutive in the respective Portal.

Xpress Qualification: In your first 30 days, generate 500 PSV AND schedule a minimum 150PV LDR order. Xpress Qualification is the first step in the Xpress Incentives Program.

¹A minimum volume per leg requirement will be announced at a future date for the top four ranks in the TriBrid Part III. Until the determined amount is announced, this part of the rank requirement is waived.

TriBrid Part I - Core						
Core 50 Unilevel	L1	L2	L3	L4	L5	Ambassador
