

# SHAPE YOUR BODY

Let's face it... not all of us have the time for a complicated exercise program. But just because you don't have hours to spend at the gym doesn't mean you can't lose weight and feel fantastic.

Limitless Worldwide's **SHAPE** system is a science-based combination of formulations contained in a simple-to-use, convenient, all-in-one kit that can help you slim down and enjoy a serious energy boost.\*

## HOW IT WORKS

Ready to start dropping those pounds? Limitless Worldwide's powerful **SHAPE** system has three unique formulations designed to maximize energy and weight loss\*... all in one convenient kit!

The system begins with **Charge™**. Charge is a high-quality, super-effective, unique two-part system that offers dual weight-loss\* benefits. It's comprised of an Aggregated Phenylethylamine Composite for powerful appetite control, mood elevation, and energy, as well as an Intensive Thermogenic Admixture for fat burning and stamina.\* Take Charge as directed 15 minutes before main meals for serious weight loss and a significant energy boost.\*

Next up is **LunaGen™**. Taken before bedtime, one or two hours after dinner, LunaGen is a remarkable formulation designed to help limit "nighttime binge eating" and its associated weight gain. LunaGen

also contains natural sleep-enhancing components to address wakefulness and assist in achieving and maintaining deep, restful, beneficial sleep\*... so you can stay active and productive throughout your day! And finally, the ultimate life-enhancing component of the SHAPE system, astoundingly popular **Thrive™-hGH** capsules, which you take on an empty stomach, 2 hours after dinner.

Thrive's patented formula has been clinically validated to increase the body's natural production of serum growth hormone levels by a mean of eight-fold in men and women.\* HGH has been touted to have multiple anti-aging, energy, muscle-building, and sleep-improving benefits.

Thrive-hGH is protected by U.S. Patent Numbers 8,551,542; 8,715,752; 8,722,114; 8,734,864; 8,747,921; 8,747,922; 8,765,195; 8,808,763; 8,808,764; 8,815,311; 9,066,953; 9,198,889; 9,238,023; 9,339,490; and Canadian Patent Number 2840809.
